

The image shows the engine compartment of a vehicle with a grey engine cover that reads "FORD DURATEC TDCI". Various fluid reservoirs are visible and labeled with red text in white boxes. On the left side, there is a pink reservoir for engine coolant and a white reservoir for brake and clutch fluid. In the center, there is a black reservoir for engine oil with a yellow dipstick. On the right side, there is a black battery with a red terminal, a grey reservoir for screen wash with a yellow dipstick, and a blue reservoir. The engine bay is surrounded by blue plastic components and various hoses and wires.
